Not all Shippers have the same needs...

We're out there watching out for our customers! That includes the trucker!

The owner has 30 years in trucking and 15 years in the U.S. Marine Corp managing a supply warehouse.

The Business Manager has 30 years in business management, customer service, and marketing.

Our combined skills offer you a fresh outlook for brokering freight and the trucking industry.

A realistic approach

We researched the industry and how it would fit into our future business plans. After a great deal of due diligence we developed our business plan which will be our guide in this business.

We took the *Broker Office Training* through David Dwinell's school in Arizona to become certified freight brokers.

We didn't see the ads touting "Become a Freight Broker" and think "that's for us!" We did our homework because we want to be successful in this business and we want to work with successful business people.

What does this mean for you? First, we're willing to think outside of the box. Not all shippers have the same needs and sometimes there's that odd shipment that needs a bit of creative transportation.

- As an Owner/Operator you can help us provide qualified truckers to our customers.

Second, customer service is important to us whether you are the shipper or the trucker. If you aren't getting the service that you expected, we want to know about it.

- Tell us what you need because we want to exceed your expectations! We never force a load on you!

Third, we believe that low market rates don't always get the shipper the best service. But we're not out to line our pockets at the expense of the shipper or the trucker.

We'll help eliminate the headaches of your finding loads!

- Let us be out there marketing to shippers while you are on the road!
- Access to online load boards and other resources.

As Your Agent...

As your Agent, we're ready to work with you to save you time and money.

We're looking for Owner/Operators who we can work with to serve our customers

on an occasional basis or even on a regular schedule. In the meantime, we can keep you busy finding loads for you.

We charge 10% Commission for any load that we locate as your Agent. If it's our customer, our commission is already built into the rate to the truck.

We know that Owner/Operators have the right equipment at the right time whether it's Van, Reefer, Curtain Van, Flatbed, Step deck, etc.

We will verify your authority to operate, your insurance, and your safety record so that we are able to assure our customers that we work with only the best drivers.

You let us know where you want to go, when you need to be home, your minimum rate. We'll take care of the rest for you!

- We save you time and money!
- We look for the best rate!
- We eliminate the downtime!
- Why wait for your next load?
